Swore to myself I would never say goodbye
(Never say goodbye)
So instead of goodbye, I'll just say goodnight
(goodnight, my lady alright)

Goodnight baby doll, no goodbyes
Hard enough as it is please don't cry
I'll be back in the wink of an eye
As the weeks go by keep my heart by your side
Art is my guide when I part for the skies
Yes ma'am, hot damn you are so fly
Can't throw in the towel gotta try
Just takes to vowels, "U" and "I"
So if I'm leaving on a red-eye
Don't worry baby, I'll return like a Jedi
Force to be reckoned with, girl you can bet I...

Swore to myself I would never say goodbye
(Never say goodbye)
So instead of goodbye, I'll just say goodnight
(goodnight, my lady alright)

Give it time. Give a little soul, let it shine
Give it all I got, won't stop til' you're mine
Leavin' on a jet plane, stayin' on the grind
Thinkin' bout the next day I will get to find
Your eyes staring back at me, hold you like gravity
Articulate love with our anatomy
Yo! With you I am glad to be
So no goodbyes only good nights.
So long, sweet heart. Wish me good flights.
And when we depart I'll keep my sights
On that day when I'm holdin' you tight
On that day when I'm holdin' you tight, right?

Swore to myself I would never say goodbye
(Never say goodbye)
So instead of goodbye, I'll just say goodnight
(goodnight, my lady alright)
