"Little Beach Bunny"

With bleach blonde hair, eyes of blue
And a little nose, it's funny
How all the other guys ask for my
Little beach bunny

Stars in her eyes and sand on her knees
She's my little surfing honey
Everybody looks when I walk by
With my little beach bunny

When the surf is right and other chicks are lagging
She never makes me wait in my little woodie wagon
She always dresses smart and looks real neat
There's not a bunny anywhere that looks so sweet

So let me tell me friend, in case you don't know
Don't try to act real funny
Cos all the guys here ask for my
Little beach bunny
