We can build another,
like last time we were
We can build another,
like last time we were young
x2

But theyre coming on strong -

He saw the other and he thought they'd go far
x2

But theyre coming on strong -

He's coming very often
and he does it wrong
and he squeezed her little finger -
the man did her harm
x2

They take one for the money,
they take two for the show
now why don't you just take her with you and go?
x2

But theyre coming on strong -

He's coming very often
and he does it wrong
and he squeezed her little finger -
the man did her harm
x2
