Your money running through my fingers
Your money running through my fingers
Your money coming through my inner
Your money coming through my inner
- from left to right!

They're coming closer
making you closer
and they never tell me,
where to draw the lines,
where to draw the lines

You point at me - a wife to be
an endlessly I cut on knees
first then I send a huge dream
about mice and queens

You ate before I ever breathed
an endlessly I cut on knees

closer -
making you closer
and they never tell me,
where to draw the lines,
where to draw the lines

When they go;
counting Sundays
When I go I will leave you too

and they never tell me,
where to draw the lines,
x3
