Maybe I was just rearranging our day down by the
harbour,
maybe I would catch your time then take you to the
harbour

Now theyre coming to take you
and I wouldnt bring you nach heart
Ive got one already measured,
which is going to set this in parts

Baby went away, but he was crushed down and easily
led
x2

I've got a neat, miraculous sheet and purr, I bet it
comes from underneath
x2

Now theyre coming to take you
and I wouldnt bring you nach heart
Ive got one already measured,
which is going to set this in parts

Baby went away, but he was crushed down and easily
led
