It was amazing watching you  
All of the things that you could do  
You changed the world before my eyes, ah yeah  
You fucked them up with a big surprise.

So who's to say you never cared  
All your life was caught in a glare  
So hey, la la la la  
Hey, la la la la

So who's to say you never cared  
All your life was caught in a glare  
So hey, la la la la  
Hey, la la la la

It was amazing watching you  
You stole the show for a year or two  
I would like to thank you for your time  
Would you care if I shine?

So who's to say you never cared  
All your life was caught in a glare  
So hey, la la la la  
Hey, la la la la

You said it  
I bought it  
the others went away  
You said it  
I bought it  
the others went away

So who's to say you never cared  
All your life was caught in a glare  
So hey, la la la la  
Hey, la la la la
