I can see the things I've left behind
I can see them falling in my life
I can see the skies about to turn

I think about the life I try to live
I think about the love she tries to give

They say that you live what you learn
I know she's the only one left for me
No, she won't do

I look and feel there's nothing left to do
I see it in the way that I see you

I never thought I'd need something to burn
I grasp for something left inside
I feel like I'm too tired to try

Well maybe we get what we deserve

I know she's the only one left for me
But there's more to it than that
I've ignored the ones that want to be with me
Hats off to her for giving me that
Cause no, she won't do
