Three people I dont know, their stairwell,
my wheelcahir, their needle, the basement, 6 inches of
cold water
I begged them, I pleaded, don't do this, I'm not
dreamin'
No nightmare, nobody can hear me,
my wheelchair, this basement is flooding, 12 inches of
cold water
I begged them, I pleaded, don't do this, I'm not
dreamin'
It's cool to get the feelin' that you have gone through
it without assistance
Just leave one hand against the wall and you can lead
yourself out of the labyrinth
6 inches of cold water
Three people I dont know, their stairwell,
my wheelcahir, their needle, the basement, 6 inches of
cold water
I begged them, I pleaded, don't do this, I'm not
dreamin'
No nightmare, nobody can hear me,
my wheelchair, this basement is flooding, 12 inches of
cold water
I begged them, I pleaded, don't do this, I'm not
dreamin'
It's cool to get the feelin' that you have gone through
it without assistance
Just leave one hand against the wall and you can lead
yourself out of the labyrinth
I've done this twice and I was amazed at the ease of
delivery
And if you lose contact you'll be stuck and I doubt you'll
be leaving
6 inches of cold water, 6 inches of cold water,
6 inches of cold water, 6 inches of cold water
