Way past beyond One Tree Hill
Further than the reefs and breakers
The other side of the time line
All alone All alone
Here's point A, there is no point B
I choked and stalled and choked
Stalled and choked and stalled and choked
All Alone All alone
A call can't bring me closer
This clock has stopped it's ticking
A pregnant pause still waiting
All alone All alone
The one that's most important
Single solitary only
Sitting in some room someplace
All alone All alone
