He's gone in her lips, a glow from her lip ignites the
shapes she sees, in the shade
Only a little is used to come to a close, only a little is
used to come to a close
Tonight at the knife stick up place, I spoke as a child
and choked on that line
(Then I saw them), then I saw them, (then I saw them),
then I saw them
What are they doing outside, what are they doing
What the hell are they doing outside, what are they
doing
In so much brown and crap it's set in an odd light
This one it stops right here now, I think it's trouble
you invite
In so much as they don't know what's right
This one it stops right here now, I think it's trouble that
you invite
An absurd gag, a monkey trick, an Irish Bull, a childish
joke
Ow, ow, ow, ow, ow, ow, ow, ow, ow, ow, ow, ow, ow,
ow, ow, ow
Tonight at the knife stick up place, I spoke as a child
and choked on that line
Then I saw the, then I saw them, then I saw them, then I
saw them
I know they have them down there, I've seen them
down there
Body parts all over thistown, what are they doing
