How does it feel  
To spit out sunny skies?  
And do you believe it's for real?  
That you've always got it right?

When the words you had explode,  
And you swallow them up whole,  
No you gotta let go let go,  
You'll love it when you let go let go let go.

It's gonna be a bumpy ride  
But it sure beats standing still.  
I know we can work it out,  
And I've no doubt that we will.  
When it hurts more than it shows,  
It's not the easiest of roads.  
No it's never black and white,  
And you can keep your happy life.

When the words to that affect.  
Have no effect on you at all,  
But you gotta let go let go,  
You'll love it when you let go  
Let go let go.

If only you could let go,  
You'd love it if you let go.  
If only you could let go,  
If only you could let go let go let go.
