"Money To Be Made"

Put up your barricades
There's money to be made
Continue your charades
There's money to be made
What your asking for means the world to me
You draw close as you whisper precisely, precisely
Your safety is assured behind those eggs shell walls of
yours
Your safety is assured behind those eggs shell walls of
yours

Friends and family buy on wings of faith
Faithlessly i don't recognize a face, not a single face
Take this sorry soul i made enough of a mess on my
own
On my own

Put up your barricades
There's money to be made

You sent the sun round the earth
(you sent the sun)
Made me feel twice what am worth
You sent the sun round the earth
Made me feel twice what am worth

You sent the sun round the earth
(you sent the sun)
Made me feel twice what am worth
You sent the sun round the earth
Made me feel twice what am worth

You sent the sun
You sent the sun
You sent the sun
You sent the sun
