(Falciglia-Mastrangelo)

I need someone woah how I need someone
I need someone, someone like you, you, you

Today my love has gone away
He won't be back he wants it that way
An' I need someone to take his place
Someone with a warm embrace
He promised me he would be true
Yeah, he said I love no one but you
But here I stand, I'm all alone
With nothin' to do but to stay at home

An' I need someone, oh how I need someone
Yes, and I need someone, someone like you, you, you

Yeah, we used to travel all around an around
Yeah, we always went from town to town
But since my baby been gone away
I haven't had haven't had a happy day
