

Hopefuls, The "Virgin Wood"

Take a tandem bike on a summer day
Out on a dirty road, it's time to get away
From all the people who try keeping us apart
We pedal into hills as the day grows dark

And we, we slip into, the virgin wood
And start a fire with our flesh
Because we are young, and we feel good
We feel much better than the rest
So let it burn, out of control
The rangers never would have guessed

Your mom and dad said no, and of course says yes
I'll meet you after dark, after the sun has set
And when the ground is cold and when the stars are
bright
We'll get the blankets out and I will hold you tight

And we, we slip into, the virgin wood
And start a fire with our flesh
Because we know, that we are young
And that our youth is fading fast
So let it burn, out of control
The rangers never would have guessed
That it was love that burned it down

Burn it down, burn it down, burn it down, burn it down
to the ground (x3)
Burn it down, burn it down to the ground

And we, we slip into, the virgin wood
And start a fire with our flesh
Because we know, that we are young
But that our youth is fading fast

So let it burn, out of control
Just like a fire fueled with gas
And dance around, until we fall
Into a heap of human ash

And slip into, the virgin wood

And start a fire with our flesh
Because we are young, and we feel good
We feel much better than the rest

So let it burn, out of control
The rangers would never have guessed
That it was love that burned it down (x3)
