Title: You'll always be a friend

-----

Is it time for me to go... I don't know  
did I hear you say you're not to sure of what we got  
anymore

once I had a gentle mood to help me  
but that is when I'm happy here beside you  
now it's gone

but in my mind I know the time  
When all we've said are done  
What we had could never end  
You'll always be a friend

I can't regret the days I loved being with you  
I just can't remember how it slipped away these things  
they just do

and if I had my life to live or love her  
I do it all again to make it better  
that's what I'd do

but in my mind I know the time  
when all we've said are done  
what we had could never end  
you'll always be a friend
