I'm burning inside since you told me
that I am the one that warms up your heart
My love is so wide and when you touch me
I melt and I burn in your microwave love (microwave
love)

You get me so hot, darling
When you shut the door and you turn it up
And I feel my heart boiling
'cause I love to melt
burning in your microwave love (microwave love)

Don't say a word, just hold me
grill me in your arms (grill me in your arms)
Give me all your heat, my darling
Shoot me with your microwaves tonight
Come on turn me on baby
I want you to boil me and set me on fire
When you turn the dial, darling
you just keep me burning
burning in your microwave love (microwave love)

Give me all your heat, my darling
Shoot me with your microwaves tonight
Come on turn me on baby
I want you to boil me and set me on fire
When you turn the dial, darling
you just keep me burning
burning in your microwave love (microwave love)

in your microwave love (microwave love)
in your microwave love (microwave love)
