Virgil

Living life as a skinny academic
People treated me like an epidemic

Liking Star Wars didn't make it any better
They started calling me a bed wetter

Genevieve

Then you grew up started seein the truth,
That being who you are is actually kinda cute

So do all the geeks poindexters and weirdos
All I've gotta say is baby lets go

Celeste Genevieve Virgil

I don't care if it's Klingon or na'vi baby
Talk nerdy to me talk nerdy to me

Go ahead in java or in c yeah
Talk nerdy to me
Talk nerdy to me

Celeste

People make fun of how I look and how I talk
Got my glasses on and I'm ready to rock
Games and cubes are really what I know
Nerds are new cool lets put on a show
