(Verse)

Allison, you got me on a treasure hunt,
Golden girl, been looking for you, Allison.

(Chorus)

Heart shaped mouth, sea green eyes,
Cold heart wind, starlight smile.
Build me in, took your time,
Want my love, but I can't find you, I can't find you.

(Verse)

Allison, you caught behind everyone
On the run, it seems we're for you, Allison.

(Bridge)

And so you tell yourself there's nothing for you to die
I know it feels like hell, you have that look in your eye.
They want you, Allison, they're screaming "Allison".

Keep me on the run, you keep me on the run,
You keep me on the run, you keep me on the run.

(Verse)

Jealousy, you really got a hold on me,
Honestly, been thinking about you heavy.

(Chorus)

Heart shaped mouth, sea green eyes,
Cold heart wind, starlight smile.
Build me in, took your time,
Want my love, but I can't find you, I can't find you.

(Verse)

Allison, you got me on a treasure hunt
Golden girl, been looking for you, Allison.

(Bridge)

And so you tell yourself there's nothing for you to die
I know it feels like hell, you have that look in your eye.
They want you, Allison, they're screaming "Allison".

Keep me on the run, you keep me on the run,
You keep me on the run, you keep me on the run.

Allison, Allison,
They want you, Allison,
They're screaming "Allison".

(Bridge)
And so you tell yourself there's nothing for you to die
I know it feels like hell, you have that look in your eye.
They want you, Allison, they're screaming "Allison".

Keep me on the run, you keep me on the run,
You keep me on the run, you keep me on the run.
