How do you feel?  
It's a short way down and a long way up from here  
I can pave my road or I can listen bout to take the wheel  
Driving down, down, down till I lost myself again  
Well I'm learning how to settle for less than perfect

[Chorus]  
How do you feel, being better than the rest?  
I'm stuck here just trying to be the best that I can  
Does it make you feel special,  
I hope you really soak it in  
I'm barely surviving doing the best that I can

I got a ghost in my close and a voice inside my brain  
I kick my feet in the shower and I'm washing them  
down the drain  
I pity all life and I pity all happiness  
I wonder if you still love it, or you ever get tired of it

[Chorus]  
How do you feel, being better than the rest?  
I'm stuck here just trying to be the best that I can  
Does it make you feel special,  
I hope you really soak it in  
I'm barely surviving doing the best that I can

I'm not gonna go unnoticed, I'm all in your face  
Take another look in my eyes, there's more than this  
If I don't measure up, if I don't fit in  
I'm sorry I'm not everything you want me to be

[Chorus]  
How do you feel, being better than the rest?  
I'm stuck here just trying to be the best that I can  
Does it make you feel special,  
I hope you really soak it in  
I'm barely surviving doing the best that I can.
