

The Hurt Process

"Subtle Like Bombs"

Red, green and white
Hot tracers steal across the sky
(How long)
Crashing down
And Burning through the night
For you and me
These things pretend we do not see
(How long)
Bare remains
Huddled in their graves
Side by side

Don't tell me how
We're safe for now

Clever disguise
Our tanks, our bombs in single file
(How Long)
Bearing down
Nowhere left to hide
Can't deny

Don't tell me how
We're safe for now

How long, How long...
Will this go on.

Don't tell me how
We're safe for now
Don't tell me how
Time we opened up our eyes
Not safe for...

How long, How long...
Will this go on.
