"Committing Fusion"

Visit "[Committing Fusion](#)" on MotoLyrics.com

It doesn't explain the choices made others
It doesn't pertain to the bond i share with my mother
This is the reason that i keep going
Forward

I don't believe in fate
Or the church and state
I belong to you
You're my fate

It doesn't exist without acceptance of the future
And when you commit it's as scientific as fusion
This is the reason that i keep going
Onward

I don't believe in fate
Or the church and state
I belong to you
You're my fate
