Well here in the east  
We seem to drag  
Just an assumption  
For you to brag  
In a tunnel of wrong the sermon is long

All baiting questions  
Form a line  
That seems to happen  
All the time  
In a puddle of wrong the serum is strong

Its space, it's a dark force  
With a face that could destroy  
Monarches  
Boundries  
Republics  
And me

Your lucky numbers  
Once were mine  
Those shoes you walk in  
Don't have a spine  
In an ocean of wrong the sailors sing songs

Its space, it's a dark force  
With a face that could destroy  
Monarches  
Boundries  
Republics  
And me
