In this space so infinite
A sea of milk we float like wood

As we wait, rescue me
Bring me home, give me peace
If i let you off
Would you leave for good?
I hope not

As we lose our bodies fold
A subtle change until we're cold

As we wait, rescue me
Bring me home, give me peace
If i let you off
Would you leave for good?
I hope not

Do you see neglect in me?
I feel the storm, an old fury

As we wait, rescue me
Bring me home, give me peace
If i let you off
Would you leave for good?
Would you take your time
Or run like hell?
Would you know my name?
Would you sink or swim?
If i let you off
Would you leave for good?
I hope not
