You said hello and loneliness said goodbye then  
It made me so glad I almost had to cry then  
I never believed in love at first sight  
But when you held me tight that night  
I knew with you it wasn't a lie now  
Said oh my my my my my my my  
What a sweet thing that was (sweet thing that was)  
Your soul was sweet, your lips were warm and tender  
I wanted your kiss, I couldn't resist surrender  
I could have sworn that violins played  
'Cause when the rhythm swayed  
With you so near, I heard the sound of your sigh now  
Said oh my my my my my my my  
What a sweet thing that was (sweet thing that was)  
I heard you sighing, wo  
I felt like crying  
You weren't lying, no no  
What a sweet thing that was (sweet thing that was)  
And then when I heard you whisper the word forever  
I knew that we'd live the rest of our lives together  
The feeling we shared was too much to bear  
And when you said you cared, I swear  
I felt that I was ready to die now  
Said oh my my my my my my my  
(Repeat and fade)
