"Change"

Visit "[Change](#)" on MotoLyrics.com

You think you've got the time to figure it out
life will pass you by, your time is running out

Oh yeah

You're haunted by your troubles everyday

Wasting smiles away

What's there left to say ?

You gotta make believe and make your dreams come true

It ain't that hard to do...

ohohoh

Chorus:

I can't change, I can't change the world alone

I need you all, everybody, Start dreaming of it

Take the step that's gonna make a difference and change your world !

I can't change, I can't change the world alone

I need you all, everybody, Start dreaming of it

Take the step that's gonna make a difference and change your world!

Strangers' faces that you just wanna hide

Won't you turn the tide ?

A smile can change it all

You gotta make believe and make your dreams come true

It ain't that hard to do...

ohohoh + Chorus

You gotta make believe and make your dreams come true

It ain't that hard to do...

ohohoh + Chorus
