

Hottest State, The "Big Old House"

Visit "[Big Old House](#)" on MotoLyrics.com

Big old house on the hill
I sat on the windowsill
Leaning out on the breeze
Do I dwell in memories
Or let them be?

I can still hear you sing
I see you in everything
In everything

It's cold today
Headed down the highway
Please don't say you're still the same
I'll love you if you've changed

Big old car rolling down
Through the dark and empty town
See the sky everywhere
Feel it in the open air, it's still so clear

It's cold today
Headed down the highway
Please don't say you're still the same
I'll love you if you've changed

It's cold today
Headed down the highway
Please don't say you're still the same
I'll love you if you've changed
