Sitting alone
I can't figure out why
It takes so much time
I'm staring at these photographs
With heavy eyes
And hearing friends
Who aren't really there
You don't think it's fair
But your words just hide the fact
That no one really cares
It was never fair
So don't tell me that you've got nowhere to go
We're all alone looking for home
And don't say to me this isn't over yet
My mind's been set
It's for the best
It's for the best
And watching the walls
As they're closing in
It's hard to see
That it's only temporarily with me
And when I return
I'll have stories to tell you
About the road
If I ever get to see your face again
It was never fair
So don't tell me that you've got nowhere to go
We're all alone looking for home
And don't say to me this isn't over yet
My mind's been set
It's for the best
It's for the best
It's for the best
