Dear Love, It's been too long  
Since I've seen you face  
Since I've touched your hand  
And dear love, In case you didn't know  
I've been lost  
Without you here  
Without you here  
I am a sinking ship  
I am a broken sail  
Without you here I just keep going Down down down  
But I'll take this loss it's not for keeps  
As I sing your name on every street  
I'll be, I'll be home soon I'm just tired of thinking  
wishfully  
So next time I am taking you with me  
With me You should've seen the sky Last night  
The sunset view faded back to blue  
But it just didn't look the same without You  
I am a sinking ship  
I am a broken sail  
Without you here  
I just keep going Down Down Down  
But I'll take this loss it's not for keeps  
As I sing your name on every street I'll be, I'll be home  
soon  
I'm just tired of thinking wishfully So next time I am  
taking you with me  
With me Mayday mayday mayday  
I am going down Jump off jump off jump off Or I'm  
gonna drown
