You caught my eye
Just like a color that I
Have never seen before
Something Oh so beautiful
How can I stand still
And let you walk right by
Wonder when you'll pass me by
And will my life ever change

Please stay Don't go
I want the world to know
I want Your heart
And nothing less than that tonight
Even if I have to shout your name
I know now that we can never be the same
So let's hold on for dear life

I can't believe this is happening
It's so much more than I thought it would be
I can't pretend it's a mystery
When you've got all of me

You're the only one I know
Who leaves me no control
You're the only one I need
So here's my everything
You're the only one I see
Girl it's just you and me
So let's try to make this scene
Played out on the movie screen
We never believed this was possible
Til now

I can't believe this is happening
It's so much more than I thought it would be
I can't pretend it's a mystery
When you've got all of me When you've got all of me
When you've got all of me...
Please stay Don't go
I want the world to know
I want Your heart
And nothing less than that tonight..
