Mayday Mayday
Someone save me
I am fragile
Oh somebody rescue me
Oh somebody tell me you will
Concrete Heartache Left me awake
Sleepless Sleeper
Oh somebody wake me up
Oh somebody tell me you will
Tell me that you're going to save me
That everything is gonna be ok
I'm screaming but nobody can hear me
Can you save me from myself? No, no, no, no
How can the be? I've tried and tried and tried
But I'm sill lost out at sea
When did I become the things that
I used to hate I'm stranded to this ship
Left to fall with a crash of the waves (mayday)
Tell me that you're going to save me That everything is
gonna be ok
I'm screaming but nobody can hear me
Can you save me from myself? Mayday Mayday
Mayday
