[Damon Warwick]

Yo mom, who thought that this could happen

[Dionne]

Nobody but me

[Ray J]

Love is what we need

So if you get that, the blessing will proceed, so please
give back

[Big Daddy Kane]

Coming at ya, mob deep on this song

And now it's on

Come together for born

Better yet form Voltron

Spread love like mustard, bust it, making knowledge
be born

So trust it, it's B-D-K, learn to love it

[Dionne Warwick](Chorus)

What the world needs now is love sweet love

[Flesh Bone]

I know just exactly what world needs now, plead it
Everybody come show a little love for your family, Jesus
we need it And
even when I flip through the pages of my history
Slowly reveal the mystery
Got to get it together quickly, in this industry

[Dionne Warwick]

Lord, we don't need another mountain

There are mountains and hillsides enough to climb

There are oceans and rivers enough to cross

Enough to last till the end of time

[Kurupt]

Yo, yo, yo

I could see far and beyond, me and my auntie Dionne

With the homie Fazon, who's cool as freon

As the music plays on, portrays and stays on
Got this thing together, got to get our game together
Life is life and if your ears are open
You could see when you scope doors closed or open
Whether you're in or you're out
You're always in and that's for sure
And that's what friends are for, for what the world
needs

[Dionne Warwick] (Chorus)
What the world needs now is love sweet love
What the world needs now

[Dionne Warwick]
Lord, we don't need another meadow
There are cornfields and wheat fields enough to grow
There are sunbeams and moonbeams enough to shine
Listen Lord, if you want to know

[Mic G]
Give me this drug, they call it love
I'd pump it off around the world
To touch the soul of every man, woman, child, boy and
girl

[Royal Flush]
I pray that we could live together on this family tree
Royal Flush and Mic G, we want the world to see

[Big Daddy Kane]
What's happening
Is the matter when the people traveling
To grasp a pen and pad and then this united gathering
Keep it on the love, love if you expect the vibe
Work it out just like an exercise, shame of

[Dionne Warwick] (Chorus)
What the world needs now is love, sweet love
What the world needs no
Come on can we have unity
Just a little bit of unity, brother
Just a little bit, just a little bit of love baby

[Coolio]
L is for the lies that they told and the lines that they
crossed
When they burglarized my soul, they cold
O is for the outsiders looking in, times is looking grim
You can't even trust your friends, damn
V, cause it's very necessary
That various policies get varied and eradicated, I

hate it
E is for the extra mile you had to walk
Just to talk to your homie who was locing
And to show him you have love for him.

[Dionne Warwick]
What the world needs now is love sweet love.
What the world needs now
It's the only thing that there's just too little of

[Flesh Bone]
We humbly gather together united with almighty power
Ready to rumble at any hour
Got love and it won't let me stumble, follow me

[Dionne Warwick]
What the world needs now is love sweet love.
What the world needs now

[Tyrese] (Fades out)
Can we get together, I'm on my way, baby
Come on get together, unity
We can unify the hip-hop nation
