I've got holes in the soles of my shoes
And the stones on the street hurt my feet but they don't
bruise
I'm a loner, a stoner but I'm gonna show her
That though I never win, I never lose

I've been sleeping in Aisha's car, I go between there
and the local bar
I've told her when I am a superstar I will buy her
everything she needs

I have friends who pretend they don't mind
When I send them an IOU saying you're so kind
Me and my bags, like a sad little nomad
Glad I'm still happy inside

I've been sleeping in Aisha's car, I go between there
and the local bar
I've told her when I am a superstar I will buy her
everything she needs

I've been sleeping in Aisha's car, I go between there
and the local bar
I've told her when I am a superstar I will buy her
everything she needs
