There's times when fake goodbyes made you cry
But this time you don't
And I was only joking I was broken
When you told me to go

Don't make up the wrong mind
Don't forget the good times

Let me,
Stay a little longer
Cause if I'm gone
I can't make it right
In just one night
We could go back
In time maybe
Go back and find
Where we both went wrong
It won't take long I know
Don't let me go
Oh don't let me go

I'm not giving up I'm still in love
Is all I need you to say
And I don't need an answer just a chance
To make the pain go away

Don't make up the wrong mind
Don't forget the good times

Let me,
Stay a little longer
Cause if I'm gone
I can't make it right
In just one night
We could go back
In time maybe
Go back and find
Where we both went wrong
It won't take long I know
Don't let me go
Oh don't let me go

I beg you to find what it takes
To forgive me of all my mistakes
Cause if I walk out of your life (don't walk out of my life)
There'll be no way back this time
Don't let me go (please don't go)

Don't make up the wrong mind
Don't forget the good times

Stay a little longer
Cause if I'm gone
I can't make it right
In just one night
We could go back
In time maybe
Go back and find
Where we both went wrong
It won't take long I know
Don't let me go
Oh don't let me go
