"Long Way Round"

Visit "[Long Way Round](#)" on MotoLyrics.com

All my travels led me to your door
Could not see you how was I to know
Living separate lives, within not to many miles
Seeing a different world, through all these different
girls
It doesn't matter now, we can block it out

I know that I took the long way round
Baby now I've found you sitting safe and sound
It doesn't matter how, I'm here now

Daisy chains and pictures in the park
Messages with sticks but from the heart
I've fallen for you now, and I can't see an out
For the first time in my life, I don't want one so it's fine
Whatever happens now, we can work it out

I know that I took the long way round
Baby now I've found you sitting safe and sound
It doesn't matter how, I'm here now

Walking through the woods hand in hand
Drinking tequila 'til we could not stand
Building a fire lying laughing 'til the sun comes up
again
There is no end

I know that I took the long way round
Baby now I've found you sitting safe and sound
It doesn't matter how

I know that I took the long way round
Baby now I've found you sitting safe and sound
It doesn't matter how, I'm here now
