"Over And Done"

Visit "[Over And Done](#)" on MotoLyrics.com

The snow it is twinkling like diamonds in the road
I'm feeling so nervous when we're a mile from your
home
And you look at me and I look at you and we know that
it's over

You call me heartless, you call me cold
You call me everything under the sun
I am lifeless, a little careless
It doesn't matter, it's over and done
Over and done, over and done

I see that you're hurting and I swear I'm doing my best
To show I have feelings though I'm empty in my chest
And you start to cry but my eyes are dry and you know
that it's over

You call me heartless, you call me cold
You call me everything under the sun
I am lifeless, a little careless
It doesn't matter, it's over and done
Over and done

Now I was quite surprised when you asked me if I'd
cheated
When would I have time, you never gave me a minute
So I'm done, it's over, I'm done

You call me heartless, you call me cold
You call me everything under the sun
I am lifeless, a little careless
It doesn't matter, it's over and done

They say I'm reckless, and I am selfish
And I watch your heart crash and burn
But I'm done, it's over and done
