Crawling on the ceiling
Falling to the floor
I don't know how I'm feeling
I cannot find a cure

I'm playing all my records
I love the crackles at the start
And baby when you kiss me
I love the way it shakes my heart

All of these words I keep trying to say
Fall out of my mouth and they float away
I guess they call it tongue tied
I'm a little terrified

All of these words I keep trying to say
Fall out of my mouth and they float away
I guess they call it tongue tied
Baby I'm terrified

I'm tumbling down a mountain
i'm falling from the sky
I'm screaming and I'm shouting
I cannot figure why

I'm looking at my postcards
From every place I've ever been
Then you come in and kiss me
My heart is shaking once again

All of these words I keep trying to say
Fall out of my mouth and they float away
I guess they call it tongue tied
I'm a little terrified

All of these words I keep trying to say
Fall out of my mouth and they slip away
I guess they call it tongue tied
Baby I'm terrified

Love love love love

Love love love love

Crawling on the ceiling
Falling to the floor
I don't know how I'm feeling
I cannot find a cure

I'm dancing round my bedroom
In Bert and Earnie underwear
you come in and kiss me my heart is bursting
everywhere

All of these words I keep trying to say
Fall out of my mouth and they float away
I guess they call it tongue tied
I'm a little terrified

All of these words I keep trying to say
Fall out of my mouth and they float away
I guess they call it tongue tied
Baby I'm terrified
