Light the Night

Life is a mess it seems
I am so out of touch with things
Id like to break the way
But therefore i needed wings

Life is a mess it seems
I tried to leave the past behind
It is so hard on me
Cuz you are undermine
And now i know that i have waited for a spark
So i let go, and keep on sinking in the dark

Light the night, turn my world into black and white
Be my guide, Light the night

Light the night, turn my world into black and white
Turn the Time, Light the night
