Intro:

A tale of two cities. Right here.

Nature:

It's time we set it straight connect with Dre the correct way

Predicting platinum in less than a day

So for that we amount us while y'all lackin' hope

All I do is write raps stack relax and smoke

Seeing my dreams come true stayin' humble in the eyes of others

Politician with the wisest brothers

It's Nature one of the greatest peep how I play this

Straight from the Bridge one of your kids favorites

From not till the day that I'm stiff fowl flagrant pay the rent

Always stay swift, stuck in my ways type shovanistic

Since a youth I had a thing for big jewels

Flooded rings and older bitches holding my riches

In lump sums for trust funds fully recovered thugs lust to bust guns

While niggas get drunk beat wives and cuss sons

A slow process called life, let's show progress

Dre:

Don Cortes, white rags cherry bently

Cop shines from Italy speak money language fluently

Never fuck with the nastiest flashiest

Bought a house as big as Scarface to show my happiness

Rackin' the 6 0's for those that want to get personal to home

Cock the heavy metal rollin' with my stones

Prominent with flashy garments spread a mill small bills

Bring a smile to an ill grill

Popular loved throughout the industry

If they sue light a Philly cause the judge has gotta Free Willy

Solute with chill Remy gently escort four ladies an arm

The four caesars at the club Pentleys condo sweets I'm

fancy
20 floors up overlookin' ladies boomerang they panties
Bump the Firm Family's latest takin' trips to Las Dregas
That's how we do it Aftermath incorporated

Hook:
C'mon c'mon c'mon c'mon it's the motherfuckin' Frim
Family ooh
Yeah, I better pinch myself to make sure I'm not
dreaming
Ooh cause the way you make me feel I feel like ooh
screaming

Nature:
I spit rhymes for the radio and spit for tours
Spend doe that I never thought I'd hold before
Now if you just wanna front, you know my styles tight
Niggas never should of plugged up the motherfuckin'
mic
Sippin' Tangeray 60 inch screen when we hang with Dre
I just flew in from Queens no bag and plan to stay
In the heat park this Royals Royce up in the beat
Seeing topless bitches rollerblading in the street

Dr. Dre:
While I lounge in a jacousy sky cliff blue got the whole
crew
Nas, AZ, Nature, Foxy there too, how we do?
Hit trees Cristal bottles, breeze tropical spread love till
we wobble
It's time to give let the kids live comfortable
Anybody pumpin' between the East and West...fuck you
Make moves political hit this revenue
Set examples respect every individual
