Darlin', let's give in to this night of sin
Heaven holds a place for you and me
'Cause if we both give in to this night of sin
Heaven's just the place we're gonna be

Now life is much too short to weep and moan
There ain't no since in goin' home alone
So honey, let's give in to this night of sin
It ain't nobody's business but our own

Darlin', let's give in to this night of sin
Heaven holds a place for you and me
'Cause if we both give in to this night of sin
Heaven's just the place we're gonna be

Now darlin', it's gettin' late, don't take a chance
On missin' out on kissin' and romance
So honey, take my hand, let's rock to the promised
land
I just want to be your lovin' man

So darlin', let's give in to this night of sin
Heaven holds a place for you and me
'Cause if we both give in to this night of sin
Heaven's just the place we're gonna be

I know it's been sometime since we first met
And there's certain words that we've not spoken yet
So spread your wings of love like an angel from above
I promise you won't give more than you get, so

So darlin', let's give in to this night of sin
Heaven holds a place for you and me
'Cause if we both give in to this night of sin
Heaven's just the place we're gonna be
'Cause if we both give in to this night of sin
Heaven's just the place we're gonna be
