let's run, let's run away
it don't matter what your parents say
make love beneath the trees
come on, I wanna feel the breeze

what a girl, what a beautiful smile
she knows that it drives me wild
whisper words, will you stay with me?
oh god, it's a prodigy

what'll happen when you leave me?
what's gonna remain
what'll happen when you leave me?
it's beautiful memories
what'll happen when you leave me?
your voice in my ears
what'll happen when you leave me? I'm sure you
feel
I'm sure you feel

there are signs I can't read at all
I can't part the shape & all
what's the change when we're smoking grass
I know there's something dark and vast
coming up between her touch
am I crazy or is it crush
the way her hands slip and slide
her mind is opened up so wide

what'll happen when you leave me
