He's alone in the desert, boy
he's gotta be real man
smokin peace pipe ain't his kinda thing
say, whaddaya see, my boy,
when the sun's going down
guess you'll see the marlboro man
this guy don't need no gun
I've seen the marlboro man, solw motion in the dust
I've seen the marlboro man, some guy you can trust
gotta cigarette in his hand, little grils get crushed
I've seen the marlboro man, that legendary touch
I came all away from texas, boy
looking for my girl
she left home two days ago
and I never really thought it hurts
I ain't got no gasoline and my money's out
then I see that marlboro man
and I know he took my baby down
