Rita spits out her laurel leaf  
and grabs a piece of my pie  
she's gonna lead me up the mountain path  
as the crows fly

Claudette's pretty quick off the mark  
like a polaris missile in heat  
she smiles at a hundred miles an hour  
and rushes you off your feet

There's all these friends of mine  
they've got me suffering  
they don't take a line  
they keep me pissing adrenalin

Ratty is nearly unique  
looks like a Pre-Raphaelite barb freak  
wears dangerous jewellery  
got a cast iron personality

Sandie wears an awful lot of silk  
says she's a friend of Mr Acker Bilk  
she's going out of my mind  
wants to live on milk

There's all these friends of mine ...

I was musing on the pool outdoors  
about foreign matters and fancy affairs  
Betty trimmed my nails with pliers  
while eating avocado pears

Norman's sobbing cos his make-up's  
running away with itself  
he's heading for an early grave  
scared to death about the state of his health

There's all these friends of mine ...
