"Isolation"

Visit "[Isolation](#)" on MotoLyrics.com

I'm living my life in a separate way
Looking for something from day to day
There is a searchlight in my heart
There's an empty space where nothing grows
There is no life for the rose
Only a shadow in my heart

I'm living in a world of isolation
I'm living in a world of isolation

Well I've watched the waves come and go
And I can never escape from what I know
There is but water on my heart
But I see you in a special way
It's a sensation on what it says
Because we are living world's apart

I'm living in a world of isolation
I'm living in a world of isolation

[Solo]

I'm living in a world of isolation
I'm living in a world of isolation

Isolation, oh yeah
Isolation, yeah
Iso -

Living my life in a seperate way
Living on my own from day to day
Under two nations
In isolation
Oh yeah, living under two nations
In isolation
Oh yeah, living under two nations
In isolation
