"Totally From The Heart"

Visit "[Totally From The Heart](#)" on MotoLyrics.com

You want more more than I can deliver
I love you more than you could ever know now

Made it plain from the start
Totally from the heart

I'm to you like the mountain to Mohammed
But these roles could be juxtaposed it's up to you now

Made it plain from the start
Totally from the heart

Can't you hear a word I'm sayin'
Every night I lie here prayin'
I'm so scared I'm too scared of being alone
So lonely lonely lonely till the next time

Look at me while I try to think about you
Look at me while I try to think about you

Made it plain from the start
Totally from the heart

Can't you hear a word I'm sayin'
Every night I lie hear prayin'
I'm so scared and too scared of being alone
So lonely lonely lonely lonely lonely
Lonely lonely lonely till the next time

From now on is the time for becoming
One by one we can take control
I'm telling you now

Make it plain from the start
Totally from the heart
