(Intro)

Don't you say
that you're worried all that day
But only I have the answer
Will it take your lovin' away

All these times
You are running through my mind
Let me give you the message
You're acting as if you were blind

(Melody)

Don't you say
that you're worried all that day
But only I have the answer
Will it take your lovin' away

All these times
You are running through my mind
Let me give you the message
You're acting as if you were blind
