Down With The Blues

I've been all night, people, with the blues,
cause I've been all day thinking about you
I've been all night with the blues
cause I've been up all day thinking about you
cause I love you, baby
but you're no good and you know you can't be true
all the time with the blues
all the time I have the blues about you
feeling so down with the blues
have the blues all the time about you
you know I love you baby
people know have never seen me so blue
feeling down, baby
feeling down the way about you
feeling down, baby
feeling down always about you
and every time I think about you woman
that's the time I have the blues
that's the time I have the blues
I'm gonna leave here, baby
can't stand your lowdown dirty way
I'm gonna leave here, woman
can't stand no more your dirty way
the way you treat me, baby
I got to make my thanks-giveaway
bye, bye, baby
well, it don't mean that I'm gone
bye, bye, baby
oh, it don't mean that I'm gone
it just means that I'm missing you, mama
oh, you've been away all too long
