Had a right to quit you, had a right to put you down
Had a right to quit you, had a right to put you down
Now you're feeling like you're on top, all you wanna is
leave this town

Get out of my life woman, never should have done me
wrong
Get out of my life woman, should never did me wrong
You got everybody talkin' about the way you put me
down

Well I got myself together and I don't want you around
I got myself together baby, I don't need you around
If you keep on doggin' me baby, I'll find me another
town, just to get away from you
Alright!

Tryin' to get me achin' baby, tryin' to fool me
You keep me achin' baby, tryin' to make a fool of me
Well when I known you woman, I didn't have more than
misery

Had a right to quit you, got a right to put you down
I got a right to quit you, I had the right to put you down
Well, if you don't leave me baby, I'm gonna leave this
town
