Early in the morning, I'll be standing in that welfare line  
Early in the morning, I'll be standing in that welfare line  
You know, my caseworker, and the old governor don't  
pay me crying no mind

I see people riding in Cadillac's, Lincoln Colonel, seems  
like they're doing alright  
I see people riding in big Cadillac's, Lincoln Colonel,  
seems like they're doing alright  
Well, I'm just trying to make it from day to day  
Oh, ... things through the night

Little children is crying, but they don't pay them no  
mind  
Little children is crying, yes, but they don't pay them no  
mind  
So much suffering through the world, yeah, they cry  
through out the welfare line

(That's why) early in the morning, I'll be standing in that  
welfare line  
Early in the morning, I'll be standing in that welfare line  
My caseworker, and the governor don't wanna hear me  
crying

Dressed up in nice suites, table got everything you  
wanna eat  
They're all dressed up in nice suites and clothes and  
things, table got everything on it you wanna eat  
The poor little children out in the streets, oh, they ain't  
got shoes to put on their feets

Early in the morning, I'll be in that welfare line  
Early in the morning, I'll be standing in that welfare line  
I'm gonna keep riding on hiring and begging,  
somebody gonna pay me some mind
