Rob the innocence, just like small boys  
Playing naked in the rain, come on  
Keys to unlock pretty much what you want  
My heart and everything

A feeble gesture like writing King Mob  
Or black mask on the wall  
I stay focused but you will  
You can stay indoors, come on

Yeah, steal the plan  
A hundred thoughts focused all in discontent  
A new heatwave, a total meltdown  
Of your bourgeoisie ways

An open invitation of seduction  
Destruction and everything  
A new dream, a brand new language  
Full of silent screams

I swear we can make it, come on, come on  
I swear we can make it, come right on  
I swear we can make it, I swear, I do  
I swear we can make it, if you do too

I swear we can make it, I swear, I do  
I swear we can make it, just about  
I swear we can make it, anything for you  
I swear we can make it, yeah
