

The (International) Noise Conspiracy "Like A Landslide"

Visit "[Like A Landslide](#)" on MotoLyrics.com

We've been waiting for a real solution, we're talking
about arms this time
No more orders, no more directions, no more waiting
around in line
Don't you ever feel like picking up something, not just
pieces of love
Been looking all over for salvation, now we've had
enough
We all together just like a landslide this time,
We all together just like a landslide this time
No more dreams about this power structure, now we're
on the move
Another rock in the machine, tired of being screwed
Don't you ever feel like being a part of, a part of
something new
We've been told so many times that there is nothing
that we can do
But we all together just like a landslide this time,
We all together just like a landslide this time

We're gonna move like a movement, 'cause that's what
we're gonna be, what we're gonna be
We're gonna move like a movement, 'cause that's what
we're gonna be, what we're gonna be
